— JX Nippon Oil & Energy —

JX Nippon Oil & Energy USA, Inc. is a wholly owned subsidiary of JX Group, the largest energy company in Japan with over 40% market share.

JX Group is a Petroleum, Mining and Energy holding company, pioneering new energy products and services such as fuel cells and solar cells for sustained economic growth and environmental responsibility.

— Global Supplier —

JX Nippon Oil & Energy's obsession with quality and continuous improvement is the reason it is the OE Lubricant supplier of choice for Japanese auto makers, and the reason for the superior quality of ENEOS MOTOR OIL.

— The ENEOS Brand —

ENEOS and JOMO have combined to form the new ENEOS brand.

The ENEOS brand name was created by combining "Energy" and "NEOS", the greek word for "NEW". ENEOS represents the corporate philosophy and identity for JX Nippon Oil & Energy.

JX Nippon Oil & Energy operates 11 refineries and 13,000 service stations in Japan. In the US, JX NOEUSA supplies lubricants to automotive OEM and aftermarket suppliers.

The ENEOS brands of Motor Oils and Transmission Fluids are available in the US in a growing number of retail, installer and specialty stores that cater to the automotive industry.

Discover why all Japanese auto makers trust JX Nippon Oil & Energy, the creator of **ENEOS MOTOR OIL**

For further information on ENEOS products, refer to the data sheet or MSDS.

ENEOS MOTOR OIL Fechnology That Moves You

Product Line Up

5W-40: European Performance

Ideal for both fuel-injection and diesel engines Formulated for high output European vehicles

FULLY SYNTHETIC / API SN/CF, ACEA A3/B4-08 MB 229.3, VW 502.00/505.00, PORSCHE , RN 710/700 1 US QT / 1 US GAL

OW-20: Ultimate Fuel Saving

Formulated to reduce fuel consumption and prolong engine life. Suited for LEV & Hybrids!

FULLY SYNTHETIC / API SN/RC, ILSAC GF-5 1 US QT / 1 US GAL

Outstanding fuel saving properties created for drivers who seek improved fuel savings

5W-30: New Fully Synthetic

The perfect balance of cost & performance and still treat your vehicle to the ENEOS protection FULLY SYNTHETIC/API SIVEC. ILSA CGF-5

Sulfur-phosphorus extreme-pressure technology offers drivers smooth shifting and enhanced protection

1 US QT

CVT Fluid: High Performance

Specially formulated for vehicles with metal-belt type CVTs offering smoother operation

SYNTHETIC BLEND / METAL-BELT 1

1 US QT

ECO-ATF: Fuel Saving ATF

Ultra-fuel efficient ATF formulated for use in all Japanese vehicles with auto transmissions*
FULLY SYNTHETIC Z-1, DW1, Matic J, K, S, W, T-IV, WS, DEXRON-III®, MERCON®
1 US OT

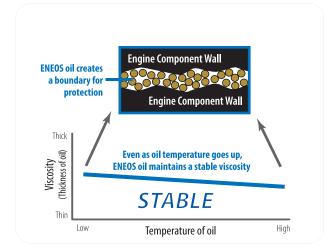

ATF TYPE SP: SP-III Compatible

Meets or exceeds the service requirement of vehicles w/ ATF SP-III as factory recommendation

*Excludes CVTs. For use in a∏ Japanese vehicles equipped with torque converter ATs, including conventional 4-speed slip-lock-up ATs, 5- and 6-speed automatic transmissions.

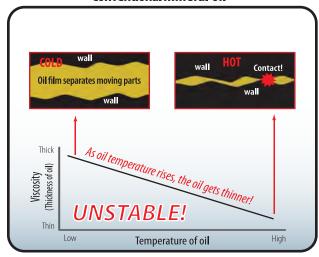

ADVANTAGES OF ENEOS

ENEOS ZERO GRADE "NANO" TECHNOLOGY

- JX Nippon Oil & Energy's "0" Zero grade technology maintains very stable viscosity from cold to hot temperatures.
- Nano-molecules in the oil do not react to heat and maintain constant protection over a wide temperature range.

Conventional mineral oil

- Traditional mineral oil will become thinner as it gets hotter.
- As the engine temperature rises, there is a possibility the viscosity of the oil will become too thin, allowing metalto-metal contact to occur, leading to wear on vital engine parts.
